HURRYING TO GIVE

UNITED WAR WORK CAMPAIGN TAKES RUNNING START

SOME DIST. ALREADY IN

Nodaway Is Going To Try To Be the First County in the State To Go "Over the Top."

James B. Robinson, chairman of the United War Work Committee of Polk Township, reports that some of the school district teams have already broken loose and run away and gone "over the top." He says Bedison District No. 117 reported this morning having raised and had paid in an amount in excess of their quota and that Douglas District No. 95, just north of Bedison, had also made the same report. Mr. Robinson also reports having received several large subscriptions from people in Maryville running as high as $200.00, and that the amount subscribed and the willingness of these people to subscribe indicates that if all the people do their part as readily as those who have already subscribed, that Maryville and Polk township will go "over the top" in a hurry.

C. E. Donlin, chairman of the County Committee, reports that Hopkins township has its goal of about $2,700.00, provided for, or will have on Monday, and that from information he has, it seems to be the purpose of all the townships in the county to complete the canvass on Monday. If this is done Nodaway county will go "over the top" on the first day and may have the credit of being the first county in the state to do so. However, S. G. Gillam, chairman of District No. 1, says that Nodaway evidently will have to "go some" to have this honor, as another county in the district has in mind to "go over" on Monday also. King City, the city and school district with the largest quota in Gentry county, reported to Mr. Gillam about noon today that they had already raised more than their quota. Mr. Gillam also received another telephone message from the chairman of Atchison county, that more than one third the entire amount of their quota had already been pledged and paid in, and as to Worth county, the other county of the district, Mr. Gillam reports that the county has been organized in school districts but that on account of the illness of one of the officials of the county committee it had been arranged to start the drive about the middle of the week, but that the county chairman advised him over the phone today that a number of the teams had caught the idea of "going over" the first day and were "raring to go" and that they might not be able to hold them.

RESIGNS FROM COMMITTEE

W. C. Pierce Tenders Resignation as Chairman of Liberty Loan Organization.

W. C. Pierce, of the Liberty Loan campaign committee, has resigned his position as chairman of that organization, his resignation to be effective as soon as a successor can be appointed.

Mr. Pierce tendered his resignation several days ago to F. C. Mitchell, state chairman of the Liberty Loan committee at Kansas City. In correspondence which followed high appreciation of the work done by Mr. Pierce was expressed and he was asked to reconsider the matter. Mr. Mitchell and other members of the state committee in letters of acceptance which followed, expressed great reluctance in accepting the resignation. It is not known who will be chosen as Mr. Pierce's successor.

It is certain that there will be two more Liberty Loans, the next one to come sometime in the early spring, perhaps in March or April. The amount of the Fifth Liberty Loan has not been made known.

Paris, Nov. 9.—Germany's reply to the armistice terms will not come before Sunday night at the earliest, it is generally believed here.

Washington, Nov. 9.—General Foch has power, should he believe it to be wise to make changes in the general phraseology of the armistice terms which he delivered to the German plenipotentiaries. His authority does not go far as to make any change in the terms themselves. They are absolute and are not subject to either debate or modification. The state department officials volunteered this information, when asked why the actual terms of the armistice are withheld.

Meanwhile the state department has no word of the progress of negotiations. The belief that the actual decision whether to accept or reject would not reach this country until tomorrow at the earliest was growing in official circles, although admittedly there was nothing to base it on.

Amsterdam ,Nov. 9.—Emperor William of Germany has declined to accede to the demands that he abdicate, says a German wireless dispatch picked up here. To the ultimatum of the Socialists the emperor replied through Minister of the Interior Drews that he refused to abdicate voluntarily on the ground that he could not at the moment of peace undertake the terrible responsibility of handing over Germany to the Entente and delivering up the country to anarchy.

London, Nov. 9.—It is now officially announced that Prince Maximilian of Baden has resigned as chancellor of Germany, said a German wireless dispatch today. The belief was expressed here that the chancellor's action assured speedy acceptance of the Allied

MEMBER MISSOURI PRESS ASSOCIATION

Contribute Freely to United War Work Drive.

The hope of an early peace must not be permitted to diminish the enthusiasm and generous response of the people to the United War Work drive which begins on Monday.

The drive is to secure funds for the support of various associations that are caring for the health, comfort and happiness of the nearly five million men who are serving their country in the army and navy. The associations include the Catholic and Jewish charities, the Young Men's and Young Women's Christian Associations, the Salvation Army, the American Library Association and the War Camp Community Service. It is thanks to them that the men who are fighting our cause find some degree of ease and comfort to ameliorate the hardships of war conditions. Their coffee, their doughnuts, their sweets, their tobacco, their religious services, their comforting administrations, their camps, huts and libraries, render a service to our boys the value of which can never be measured in money.

Whether peace comes soon or late, it will be perhaps two years before the armies are demobilized and the ships put out of commission or returned to the ways of commerce. The process of getting our two million men out of Europe will be longer and more difficult than was the process of getting them there, because English and other ships that were used for their transportation will be imperatively needed for other purposes.

Meanwhile our soldiers and sailors will be needing just as keenly as ever, the services of the associations for which it is now our duty to raise funds.

It is not only our duty. It is a proud privilege. There is not a citizen who lives in his own home, sleeps in his own bed, eats at his own table, and has done so throughout all these awful days of carnage and misery, but should be glad to make some sacrifice of his own comfort and convenience, even of his own necessities, to contribute to the help of the soldiers and sailors whose lives are constant hardship and danger.

Back up the organizations that are backing up our boys.—Today's Omaha World-Herald.

IN MISERY FOR YEARS

Mrs. Courtney Tells How She Was Cured by Lydia E. Pinkham's Vegetable Compound.

Oskaloosa, Iowa.—"For years I was simply in misery from a weakness and awful pains—and nothing seemed to do me any good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and got relief right away. I can certainly recommend this valuable medicine to other women who suffer, for it has done such good work for me and I know it will help others if they will give it a fair trial."—Mrs. LIZZIE COURTNEY, 108 8th Ave., West, Oskaloosa, Iowa.

Why will women drag along from day to day, year in and year out, suffering such misery as did Mrs. Courtney, when such letters as this are continually being published. Every woman who suffers from displacements, irregularities, inflammation, ulceration, backache, nervousness, or who is passing through the Change of Life should give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

Somebody's Dollars Will Do It—
I Wonder if They'll Be Yours
By Bruce Barton
I WILL tell you what will happen some night this winter in France. Some night when its cold and dark. There will be a rustling through the front line trench, where our boys stand guard. And a heavy ladened Secretary will make his way along.
In his hands will be great steaming pots: in his pocket chocolate and cigarettes.
From one man to another he will go, passing a cup full of hot coffee to hands that tremble with the cold; bringing the comfort of a bit of sweet and a smoke.
Men will hail him cheerily, slapping him on the back; and when he has gone things will be a little easier in that trench because he has passed that way.
How much will it cost to make that trip, do you suppose? Counting the pittance that the Secretary is paid, and the cost of the chocolate and the cigarettes and all?
Five dollars? Twenty-five dollars? I do not know.
But whether it is five dollars or twenty-five, I'd like to think that it is my five or twenty-five—wouldn't you? That some night when it's cold and lonesome, my money and yours might send a Secretary out along that front line trench. Let's make up our minds that we are going to pay for a score of those trips. A score of the nights this winter shall be our nights
—nights when the boys greet joyously the chocolate and cigarettes that our money provided; and are happier because our representative has passed.
United War Work Campaign
For the Boys in the Service

Proclamation.

It is not necessary for me to call the attention of the people of the state to the noble purposes of freedom for which the manhood of America is fighting on a foreign field. Our commonwealth has arisen to a splendid understanding of thise principals as expressed in the purchase of Liberty Bonds and subscriptions to other war campaigns. That the world may be free from autocratic oppression, millions of our young men have separated themselves from their accustomed civilian life, with all its domestic influence. There is, therefore, a natural heed in France, and in our cantonments, for the agencies that will supply, in some measure at least the whole some influence of the American home, the church and society.

Seven organizations, authorized by the government to care for the welfare of the men in the service, have been requested by President Wilson to combine their campaigns. These organizations are the Young Men's Christian Association, the Young Women's Christian Association, the National Catholic War Council, (K. of C.), the Jewish Welfare Board, War Camp Community Service, the American Library Association and the Salvation Army.

The manner in which these organizations, since the very inception of the war, have contributed to the welfare, comfort and convenience of the men in the service is a source of continuous satisfaction to every loyal American.

Every good citizen will agree with the wise suggestion of the President and regard it as a great privilege to contribute to the point of real sacrifice to sustain the work of these organizations.

Now Therefore, I, Frederick D. Gardner, Governor of Missouri, do hereby proclaim that the week beginning on Sunday, November 10, 1918, shall be designated and set apart for the United War Work Campaign. I appeal for earnest attention to the work and a liberal response to the call for the funds absolutely necessary for its maintenance.

Despite the numerous so-called peace offensive of the enemy, the coming year promises to be the most critical one of the war. We will have at least another two million men in the service, and it is highly necessary to the morale of that noble army that they experience no interruption of this morale-making work which has entered into their army life, bringing them happiness and courage. To see there is no interruption is the part of those OUR BOYS have left at home-our part.

In Testimony Whereof, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Missouri.

Done at the City of Jefferson this 29th day of October, A. D., 1918.

(Signed). FREDERICK D. GARDNER.

By the Governor:

JOHN L. SULLIVAN,
Secretary of State.

OBITUARY.

Alma Morgan, a daughter of Lewis and Lucy Morgan, was born near Graham, Mo., October 21, 1868, and was released from this life at their farm north east of Graham, Nov. 7, 1918, at the age of 50 years and 16 days.

She was married to Phillip Daise February 24, 1888, and three children were born to them, one dying in infancy. A daughter, Blanche, and son Lenn C., of Schenectady, N. Y., with the father are left to sorrow. Also one sister, Mrs. C. C. McDowell of this county, and a brother, John L. Morgan of Waurika, Okla., who attended the funeral.

Mrs. Daise with her husband, had lived on the home farm over 27 years. It was her ambition for the children to receive a good education and her life was spared until she was privileged to enjoy the fruitage of her great desire.

For many years she had been in poor health. Kind hands ministered to her during her last illness but sleep came to relieve her of suffering. A good neighbor, loving wife and tender mother has been called from us to await the summons of the great day. Many sorrow with the husband and children in their grief.

The funeral services were held at the home Saturday, Nov. 9 at 10 a. m., and the body laid to rest in the Graham cemetery.

Forum-ettes

With another peace celebration coming we're wondering if there is going to be plenty of ammunition left.

And speaking of wondering—don't you reckon President Wilson would like to be excused from issuing a Thanksgiving proclamation this year.

A new girl in an uptown office was given a number of bills with instructions to look up the number of the street so the collector would have no trouble in finding the parties. Finding all but one, and after looking a long time in the directory, she appealed to another clerk saying she could not find "Rebecca Lodge."

Human nature is a curious thing. Men will deeply sympathize with you if you wear a bandage around your foot, or your arm is in a sling, but will laugh right in your face if you appear in public with a dark ring around your eye.

Yes, Idabelle, you have the right understanding of the order against large gatherings of people. Kissing where the crowd exceeds twenty in number is forbidden.

"Women have the same rights as men in their conduct in public," an ardent suff speaker at St. Joe told an audience. Maybe so, but she don't use them always. Didja ever see a woman go along the street and stop to blow her nose on the sidewalk?

The "work or fight" order is all right were it not for the fact that so many married couples insist on doing both.

Now comes the experts and tell that a herring weighing seven ounces is able to lay 30,000 eggs. If some wizard could only cross the herring with the Rhode Island hen—aw, what's the use of speculating?

Of course its none of our concern, and perhaps the inquiry is impertinent, but we can't help wonder what the Sultan of Turkey will do with his harem when he has to skidoo.

It may be possible to kiss a woman against her better judgment, but you can't kiss her against her will. This may not be a proper subject to discuss from the pulpit, but it is expert testimony.

A Maryville man who is going to start on his vacation in a few days has not been known to do a lick of work in ten years.

HEALTH TALKS

SPANISH INFLUENZA OR GRIP.

By Dr. Lee H. Smith.

An old enemy is with us again, and whether we fight a German or a germ, we must put up a good fight, and not be afraid. The influenza runs a very brief course when the patient is careful and if we keep the system in good condition and throw off the poisons which tend to accumulate within our bodies, we can escape the disease. Remember these three C's—a clean mouth, a clean skin, and clean bowels. To carry off poisons from the system and keep the bowels loose, daily doses of a pleasant laxative should be taken. Such a one is made of May apple, leaves of aloe, root of jalap, and called Dr. Pierce's Pleasant Pellets. Hot lemonade should be used freely if attacked by a cold, and the patient should be put to bed after a hot mustard foot-bath.

To prevent the attack of bronchitis or pneumonia and to control the pain, Anuric tablets should be obtained at the drug store, and one given every two hours, with lemonade. The Anuric tablets were first discovered by Dr. Pierce, and, as they flush the bladder and cleanse the kidneys, they carry away much of the poisons and the uric acid.

It is important that broths, milk, buttermilk, ice cream and simple diet be given regularly to strengthen the system and increase the vital resistance. The fever is diminished by the use of the Anuric tablets, but in addition, the forehead, arms and hands may be bathed with water (tepid) in which a tablespoonful of salaratus has been dissolved in a quart. After an attack of grip or pneumonia to build up and strengthen the system, obtain at the drug store a good iron tonic, called "Irontic" Tablets, or that well known herbal tonic, Dr. Pierce's Golden Medical Discovery. —Adv.

LOOKING TO THE U.S.

WHEN FRANCE REBUILDS AMERICA WILL BE BUSY

EXTENT IS NOT REALIZED

After War Gerany Could Not Name a Price That Would Induce a Frenchman To Buy of Her.

"Have you Americans any conception of what the requirements of France will be, when the allies have won the war and our country begins its work of reconstruction?" asks H. H. Windsor in December Popular Mechanics Magazine. This question was asked me a few days ago by a prominent business man of Paris, who, having been gassed, can no longer fight, and is visiting this country. From what he proceeded to relate it is evident that comparatively few on this side do realize what our export trade to France is destined to become.

"For many years," he said "our people secured their machinery, printing presses, tools, electric machinery, and lighting fixtures, etc., all from Germany. This was because German prices were lower than other countries But now! Germany could not name a price which would induce a Frenchman to buy of her, no matter what his need. England will be busy supplying her own wants and those of her export trade, hence we are looking to your country. Our texeile mills, nearly all of which were in northeast France, have long since been destroyed and the machinery carried into Germany. Our textile manufacturers are already making a new start in southwest France; securing what little machinery they can. With the end of the war this industry will be one of the first to resume, and we shall require, of textile machinery alone, over 200,000,000 francs. I could go on down a list of a hundred articles, whose requirements while not so great, will in the aggregate total a vast sum. Partly because our people regard the Americans so highly, and are full of admiration for the splendid things they are doing in our country and partly that we may know and read your language, great numbers of our people are studying English, not only to be able to read it, but to speak it as well. We expect to offer such attractive opportunities, especially to constructing engineers and mechanics of all kinds, that thousands of your young men will remain in France, at least during the first two or three years of reconstruction."

NEWS FROM FLOYD REYNOLDS.

Says He and His Brother are Both Doing Fine.

Cyrus Reynolds received the following letter a few days ago from his son, Floyd, who is in active service in France:

France, Oct. 15.

Dear Father: I will answer your welcome letter I received yesterday. I amenjoying the best of health. The last time I saw Henry he was getting along O. K. Everything looks bright for the American boys. My division has been up and they did all that was expected of them, and came out with only a few killed and wounded. It was a very difficult sector. The one thing I don't like about this country, it rains every day just as sure as the day comes. I have given you about all the news I can and hope you will answer in the near future.

Your son,
FLOYD REYNOLDS,
Co. L, 139th Infantry, 35th Division.

Celebrated Ruby Wedding.

Wm. Woodhead and wife celebrated their ruby wedding Wednesday, Nov. 6, at their home in Barnard, having been married for forty years. Mrs. Woodhead was Sarah F. Morris of Andrew county and was married to Mr. Woodhead at her parent's home near Whitesville by Elder Middleton of the M. E. church, the day after the election, just forty years ago. Dinner was served yesterday to the following guests: T. Painter and wife and granddaughter of Clyde, I. C. Morris and sons, Joseph and Ira and wife of Rea, and Mr. Deaton and wife and Miss Jessie Morris of Barnard. — Barnard Bulletin.

J. C. Hocker Left Saturday.

J. C. Hocker and wife left Saturday for their new home in Wheatland, Cal. Mr. Hocker has been in failing health and will spend several months in trying to recuperate before taking charge of his business in California. The best wishes of their many friends goes with the Hockers.—Barnard Bulletin.

IS GRATEFUL FRENCH CHILD

Mrs. Mary Kost Riffle Receives Letter From Her Adopted War Orphan. Translation by Miss Floyd.

Mrs. Mary Kost Riffle, living southwest of the city, who has adopted a French war orphan, has just received a letter from the child's mother, Louise Darmony, and a brief one from the little girl herself, Leone, eight years old, is enclosed, as is a small snap shot of both.

The letters are written in the purest French and indicate the writer to be a person of education and culture. The translation was given by Miss Juanita Floyd, teacher of French at the Normal and the letters follow:

Orleans, France, Oct. 13.

"Dear Madam: I have received your letter of the 16th; I assure you that it gave me great pleasure to see the friendship which you bear towards your little god-daughter without knowing her. I suppose you are still in good health, but in our country there is much sickness just now; people die in a few days from bad cases of influenza.

"I have been sick for a few days this week with a bad cold, but that is better now, and your little god-daughter has had the whooping cough this summer. She still coughs a little, but has returned to school. I am working in a tobacco manufactory. That is doing well; they require eleven hours work a day to make many cigarettes for all of our poor soldiers, their only diversion being to smoke.

"The war is moving on nicely just now. This is very fortunate for those who still have their people in it, but as for me, dear Madam, I had only one brother left and he was killed August 15. He leaves a little wife, twenty-six years old, who is very nice, (they have no children), a very happy family as mine was. What a blighted life and what sorrow in my heart when I hear that the war is going on well and that the end is near. All the better for those poor unhappy men who await the end with impatience, but for us the days are heart-breaking. Yet we must pass that over and become resigned.

"Now, dear Madam, I thank you very much for the check of September as well as for the good will you have for your little god-daughter. Here is our picture. We are not very natural in the sunshine. Accept, dear Madam, the kindest regards of a devoted friend

"LOUISE DARMONY (widow)

Faubourg, St. Vincent 134, Orleans, Boiret.

"My Dear Godmother: I am writing you to give you news about myself, which is good just now. I go to school I am in the third class. I have had a very bad case of whooping cough and stopped school for a while, and at the reopening of school, I returned and took cold. I have had a very bad cold, but that is now better.

"I am eight years old. I learn very well at school; I have advanced a class at the reopening. When I return home, I help Mamma. I run her errands, dry the dishes for her and keep her company which I like very much.

"I close in embracing you with all my heart.

"LEONA DARMONY."

Gives Blood for Red Cross.

Kansas City, Nov. 9.—A handsome, well dressed woman, answered a recent advertisement of a local hospital for human blood in order that it might be transfused and a life saved. A reward of $25 was offered.

The woman permitted a quart of blood to be given to the sick patient. When the operation was over the doctor started to write out a check for the money.

"Make it payable to the Red Cross," she told him, and it was done.

Ruddy Cheeks—Sparkling Eyes —Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

AVERAGE BRITON MISSOURIAN

There's Nothing Worth Shouting About But the End, Anyway, So He Calmly Awaits Victory.

London, (by Mail.)—The temper of the British public in the face of the glad news of the past few weeks has been as remarkable as was their calm in the dark days of the early summer.

From the start, the average Briton has had the typically British point of view that we will worry through somehow, and come out on top—we always do.

He needed that philosophy pretty badly in March and April and May. There had been other dark days, but this one came closer home because it meant older men combed out for use in France ,and younger boys coming up for examination.

Now, while American newspapers scream victories and word comes of whistles blowing and bells ringing England receives its good news with pleasure no doubt, but quietly and with no fireworks. Papers are eagerly bought, the first word between friends is "more good news today," and there is no question but that the front news is followed closely.

However, the average Briton knew that it was going to turn out all right. He learned early in the war that bell-ringing wasn't always followed by continuation of good news. So he concludes it isn't over yet, and there's nothing worth shouting about except thes end anyway. A sudden reverse apparently wouldn't jar him; he's discounted it already.

Besides being undemonstrative, he's from Missouri and must be shown that the time has arrived to toss away his hat in a wild celebration.

Pasture Wheat Now.

Unusually favorable weather conditions have caused an extremely rapid and vigorous growth of wheat this fall and in some places there is danger that the crop will reach the jointing stage before freezing weather comes. Wherever this happens the crop will suffer serious injury from winter-killing. Many farmers are asking the University of Missouri College of Agriculture how to avoid this damage. According to W. C. Ethredige of the department of farm crops, it may be avoided only by pasturing the crop now.

More harm than good ordinarily results from pasturing wheat, for the second growth is not as vigorous as the first growth and does not yield so well. Besides, considerable damage is suffered from trampling by the stock. But when there is danger of jointing, pasturing must be resorted to as the only means of saving the crop. Even in this case, judgment must be used in applying the remedy. Stock should not be turned on the crop when the ground is soft with moisture, as excessive damage from trampling would result. When the ground is dry cattle will do less damage than sheep because they will do less damage by as closely as sheep would graze it. But when the ground is wet, sheep should be turned in rather than cattle because they will da less damage by trampling. Under no conditions should wheat be pastured after the beginning of its growth in the spring.

Tamale Pie.

2 cups corn meal, 6 cups boiling water, 1 tablespoon fat, 1 onion chopped, 1 pound chopped meat, 2½ teaspoons salt, ¼ teaspoon pepper, 2 cups tomatoes.

Add cornmeal and 1½ teaspoons of salt to boiling water, boil 5 minutes, and cook over hot water 45 minutes. Melt fat, add onion, and cook until browned. Add chopped meat, and if raw, stir until red color disappears. Add 1 teaspoon salt, pepper, and tomatoes to the meat. If convenient, a green or red pepper cut in strips may be added. Eighteen ripe olives and 30 raisins will improve the flavor and give interest to the dish, but are not necessary. Grease a baking dish, put in a layer of cornmeal mush, pour in the meat mixture, cover with the mush and bake one-half hour.

Escallop of Roast Beef with Rice.

Season the rice with one teaspoon of bacon fat to each cup of cooked rice used, and put a layer in a baking dish. Cover with cold roast beef chopped not too fine, then a layer of sliced or stewed tomatoes, seasoned well with salt, pepper, and dots of savory fat. Repeat until the dish is nearly filled, and cover with bread-crumbs. Brown lightly in oven. If sliced tomatoes are used, cook until these are tender.

MAY SUSPEND DRAFT CALLS

Gen. Crowder Calls Aides Into Conference to Consider Plan.—Feeling Grows No More Will Be Needed.

Washington, Nov. 9.—Provost Marshal General Crowder called into conference yesterday the heads of all sections of his office to discuss possible suspension of the November draft calls, under which more than three hundred thousand men have been ordered to army camps.

With 4 million men already under arms overseas and at home, the feeling is growing that no more will be needed, even though it may be a long time before American forces can be recalled from France and some additional men may be sent over.

While General Crowder would not discuss what recommendations he might make to the general staff, it is understood that his advisers will advocate warmly withdrawal of the November calls, at least if the Germans accept the American and Allied armistice terms before the movement to camps begins.

Beginning Monday, 252,000 men were ordered to proceed to camp before November 15, including suspended calls replaced in force. Whether that flow can be stopped depends entirely upon the armistice progress, and the general staff's view of Germany's power of future resistance.

REV. NIEMANN AN EXAMINER

Maryville Pastor on Board to Choose Successor to Mgr. Linnenkamp.

A successor to the late Mgr. Christopher Linnenkamp will be selected at a concurcus which will be held at St. Joseph Tuesday. Monsignor Linnenkamp was the pastor of the Immaculate Conception Catholic church at the time of his death.

The concurcus is a procedure by which priests are chosen as irremovable rectorates. The priest so named cannot be removed without a cause. The concurcus consists of an examination and can be extended only to priests who have been ordained ten years and pastors for at least three. However, priests doing work equivalent to that record can also take the examination.

Bishop M. F. Burke has named the following examiners: Rev. Henry Niemann, Maryville; Rev. E. S. Ernst, Salisbury; Rev. Dennis Kiely, Plattsburg; Rev. D. F. Sullivan, Hannibal; and Rev. Ladislaus Slisz of SS. Peter and Paul church, St. Joseph.

Help Save a Soldier's Life.

Peach Stones.
Prune Pits.
Olive Pits.
Cherry Pits.
Walnut Shells.
Apricot Pits.
Plum Pits.
Date Seeds.
Butter-nut Shells.
Brazil Nut Shells.
Hickory Nut Shells.

Collect all you can of these materials, dry them thoroughly and deliver at least once each month to any branch post office or deposit in barrels placed in front of public schools and in department stores.

The commercial apple crop this year is 24,400,000 barrels, the department of agriculture has estimated. Last year's crop was 22,519,000 barrels.

NO LETUP IN WAR PLANS

Even With Armistice Signed, Vast Army May Be Necessary To Make It Effective.

Special to The Democrat-Forum.

Washington, Nov. 9. — Secretary of War Baker emphatically denied tolay that imminence of an armistice had caused any curtailment in military activity on the part of the government.

Military experts say a general plan of demobilization of America's great army has been worked out by the general staff, being developed long before there was any talk of an armistice, along sound military lines, as a matter of course. Plans for demobilization, it was declared, were begun soon after American forces assumed potent proportions. In the event of an armistice this fall, it was said the plans may have to be altered somewhat. No one knows yet how long it will be necessary for America to maintain a formidable force in Europe even after the armistice is signed. Peace may yet be a long way off, and the conditions of the armistice, if accepted by Germany, undoubtedly will require a vast army of soldiers for occupational and other purposes necessary to make the armistice effective.

The Russian situation also is a problem which may call for protracted military activity by the Allies. America, it has been hinted, may be called upon to send additional forces into Russia to aid in restoration of the government there. Experts agree the Unitel States probably will have need for a large army in Europe for many months, and perhaps a year or more.

Arizona, which produced more than 38 per cent of the refined copper in the United States last year, is expected to exceed its record this year.

MUSTEROLE—QUICK RELIEF! NO BLISTER!

It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting

Musterole is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to bother with a cloth. You simply rub it on—and usually the pain is gone!

Many doctors and nurses use Musterole and recommend it to their patients.

They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

30c and 60c jars; hospital size $2.50.

YANKS ASTOUND FRENCH BY THE LAVISH USE OF MONEY

BUY ALL THAT'S IN SIGHT

Shops Stocked With Six Months' Supplies Are Frequently Cleaned Out in a Day by the Doughboys.

By R. J. Kirk
Former Pacific Coast Newspaper man now with American Expeditionary Forces.

Somewhere in France, (by mail.) — American soldiers astound the French with their money-spending proclivity. Shops stocked sufficiently in the ordinary course of events to last six months are frequently cleaned out in a day when the Yankees arrive. The Americans just simply buy everything in sight.

A bunch of troops just arriving from the long journey overseas, or perhaps having been shunted around a month or so after landing, reach a permanent camp and are paid off. Frequently they haven't had a pay day in two or three months.

Then with their pockets full of the strange francs they go to town and make up for lost time. They overlook nothing from a Swiss watch to an armful of souvenirs to send back home.

But with all the spending and buying it is remarkable that there are few cases of drunkenness. The wine shops are open to the Americans at certain hours, generally from 5:30 to 8:30 p. m. But the average American does not like French wine, at least not at first. French beer has a flat, weak taste which does not appeal at all to Americans. There is no whiskey, and even were it available the Americans would not be allowed to purchase it. Cognac is the nearest approach to whiskey and this must be obtained by stealth—sort of a bootlegging process.

Many thousands of American soldiers, disgusted with the light wines and beers which only they may procure, have foresworn booze entirely, gone on the "water wagon" for keeps and will be in good trim for the nation-wide prohibition they will face when the war is over and they return to tae United States.

Siberia has an area more than one and one-half times as great as that of the United States.

5 cups cooked hominy, 2 tablespoons fat, 2 tablespoons flour, 2 cups milk, 4 potatoes, 2 cups carrots, 1 teaspoon salt, ½ pound dried beef, (2 cups cooked fish may be used instead of the beef).

Make a sauce of the fat, flour and milk, and cook until it thickens. Cut the potatoes and carrots in dice and mix them with the hominy and meat. Put in the baking dish in layers with the sauce, having the top layer of sauce. Bake an hour.

stiff armistice terms.

London, Nov. 9.—The German war cabinet has been in session since early today said a News Agency dispatch from Copenhagen. At noon it added that the Kaiser has asked Prince Maximilian to remain in office as chancellor temporarily.

Amsterdam, Nov. 9.—Chaos and revolution are spreading inland through Germany from the coast, said advices from a German source today.

Copenhagen, Nov. 9.—A general railway strike has been called in Germany according to a dispatch to the Social Democrats today. The Dispatch says there are two hundred thousand deserters in Berlin.

London, Nov. 9.—The population of the Polish provinces of Plock has revolted and in fighting that followed many persons were killed, said an Exchange Dispatch from Zurich. The Germans shot leaders of the movement and deported whole male population towards Germany.

London, Nov. 9.—Two German warships were blown up at Dumburg and two at Kiel, according to a report reaching here early today.

WORSE THAN GAS

Kidney disease is no respecter of persons. It attacks young and old alike. In most cases, the victim is warned of the approaching danger. Nature fights back. Headache, indigestion, insomnia, lame back, lumbago, sciatica, rheumatism, pain in the loins and lower abdomen, difficulty in urinating, all are indications of trouble with the kidneys.

When such symptoms appear you will almost certainly find quick relief in GOLD MEDAL Haarlem Oil Capsules.

This famous old remedy has stood the test for two hundred years in helping mankind to fight off disease. It is imported direct from the home laboratories in Holland, and may be had at almost every drug store. Your money promptly refunded if it does not relieve you. Be sure to get the genuine GOLD MEDAL Brand. In sealed packages, three sizes. Adv.

DIES IN HOSPITAL IN FRANCE

Parents Receive Word of Death of Roy Kent.—News Comes in Letter From Officer of Company.

Roy Hartman Kent, a son of Mr. and Mrs. E. M. Kent, living south of the city died of pneumonia in a hospital in France. News of their son's death came to the parents Wednesday morning in a letter from the lieutenant of young Kent's company.

Young Kent has been in active service in France for several months. He was wounded and had been in the hospital several weeks, and when the parents last heard he was improving.

Present Day Desserts.

These recipes from the United States Food Administration are sugar saving and very good.

Junket.

3 cups of milk, 3-4 cup light sirup, or hopey; 1 teaspoon vanilla, 1 junket tablet, 1 tablespoon cold water.

Heat milk and sirup in a double boiler until lukewarm. Crush the junket tablet and dissolve it in cold water and add to milk. Add vanilla and stir thoroughly and quickly. Pour at once into glass serving dishes and let stand undisturbed until firm, then chill. Serve with fresh berries or grate nutmeg over surface and with cream.

Boiled Icing.

2 egg whites, 1-2 cup light sirup, ¼ teaspoon extract, few grains salt.

Heat sirup and allow to boil until it spins a long, heavy thread (120 degrees C, or 248 degrees F). Do not allow sirup to brown. Pour over the stiff egg whites beating constantly. Beat until creamy or of right consistency, and when cold, spread over cake. As this filling does not harden, it may be served as marshmallow paste is served.

head of a family, and the keeper or person in charge of any hotel or boarding house who shall know or have good reason to believe that any person within the city of Maryville is afflicted with any contagious disease.

No person shall pass into or out of, to or from any quarantined premises without permission first had and obtained from the city physician so to do, until the quarantine restrictions are removed from such premises and the premises disinfected under the direction of the City Physician.

No person shall tear down or remove quarantine flags or notices without authority from the Board of Health.

No person outside the corporate limits of said city of Maryville who has any contagious disease in any stage shall come into or be or remain in the city of Maryville.

All the above applies to the disease of influenza as well as other contagious diseases.

The members of the Board of Health in the City of Maryville are: W. O. Garrett, Mayor; P. L. Edwards, Marshal, and Dr. F. M. Ryan, City Physician.

The penalty for violation of any of the above provisions is a fine of not less than five nor more than one hundred dollars for each offense. We trust that all persons will perform the duties that devolves upon them under said Ordinance No. 2 before mentioned and the other quarantine regulations of said city to the end that the city may soon be free from this disease. With the proper co-operation of the public, the members of the Board of Health think that the disease of influenza can be placed under control so that the restrictions can be removed in a very short time. Without such co-operation it will be necessary to keep the restrictions on indefinitely.

This 9th day of November, 1918.

DR. F. M. RYAN, M. D.
W. O. GARRETT, Mayor.
P. L. EDWARDS, Marshal.

In an effort to stamp out the epidemic of influenza members of the city health board at a meeting held at the mayor's office last night decided on a more strict observance of the city health ordinance governing contagious diseases.

"If we are ever going to put a check to the epidemic," said Mayor Garrett this morning, "we must have the active co-operation of the people, and we must make the quarantine regulations worth while. There has been disregard of the regulations of the health department with some cases quarantined and others permitted to do as they pleased, while numbers of cases have been unreported to the health officers."

"From now on until the epidemic is definitely checked," continued Mayor Garrett, "the ordinance will be strictly enforced and persons found violating it will be arrested. I have given orders to the police to arrest any violator of the ordinance and there will be no compromise until the ban may be safely lifted. With five weeks next week of trying to stamp out the epidemic we have been unable to accomplish much and from today we are going to use drastic means. The health department is thoroughly in earnest in this matter. For myself I am tired of having persons do just as they please when they know what is required and the conditions we are facing. It must stop and arrests will follow every violation found."

Poultry Show Called Off.

Owing to the influenza epidemic that prevades our city, and that it may continue for some time yet and the fact that banks, merchants and business men on whom we have to depend largely for financial aid have had so many financial calls to respond to in aid of all the war activities during the past year and the further fact that the Missouri State Poultry Show is to be held at St. Joseph this year on same dates fixed for our show, we have decided to call off the Maryville show for this year.

Accepts Position in Chicago.

Maurice Wolfers has just accepted a responsible position with Scovell, Wellington & Co., expert public accountants and industrial engineers of Chicago, and will leave Nov. 11 to assume his new duties. Mrs. Wolfers and Jane Abbott will remain here and at Savannah until the first of the year before going to Chicago to make their home. Hopkins is mighty sorry to lose such an estimable family but the position is of such a character that Maurice felt he could not afford to turn it down. He has been general utility man for the Wolfers Mercantile Co., here and will be missed by this firm.—Hopkins Journal.

Mrs. Sophia Keefe and her sister, Miss Ella Nole, left this morning for Shelbyville, Mo., to visit their brother who is leaving soon to enter military service.

Public Notice

To any person that wants to make more money, come to Wyoming and buy you a farm where the crop in one year will pay for the land and where one acre put in potatoes will pay for five acres at the present price; where you and your family will be healthy and you are sure to prosper if you work and try like you have to in Missouri. Now I know what I am saying, as I lived here in good old Missouri for 18 years and always tried hard to get us a home, but when I left here three years ago I owed over $1,600.00 of debts here that I could not pay, but have paid them since I went to Wyoming. I am only telling you this to encourage you to come. We have good schools good churches, good water and climate, and as good people as you can find anywhere. I have land I can sell from $15.00 per acre up to $50.00 per acre. Close to two good railroads. Have got a 2,400 acre ranch at $25.00 per acre that is sure a bargain.

Now the first reason I want you to come to Wyoming is, because if you come and buy a farm I get a small commission out of it, but that is not the best reason. I know I will be doing you a favor and know you will always be glad you come. Now, in case some stranger to me should read this ad. I will give you as reference some of the best men in Nodaway County or any other county. In Parnell, James Barber, W. N. Morgan, C. C. Evans, A. J. Roof, Bill Jackson; Ravenwood, Mo., S. E. Wells, and V. O. Hunt; Barnard, Mo., George Cole, banker; Gaynor City, Mo., Charlie Lewis; Sheridan, Mo., C. C. Hall; Hopkins, Mo., Albert Mutti; Maryville, Mo., Nathaniel Sisson, U. S. Wright, Henry Wright, James Robinson. For any information about this county, if you can't see me when I am here, write me at Carpenter, Wyo. I took three men out with me two weeks ago and sold all three a farm. Would be glad to have you talk to any of these men: Cecil Talkington of Parnell or Elmer Talkington and Pete Mumford of Bedford, Iowa. We raise corn, wheat, oats, barley, rye, speltz, flax, millet, cane and potatoes, alfalfa and good gardens. Poultry of all kinds do well. Stock of all kinds do well, especially hogs, as hog cholera is unknown.

The only way you can realize what a good county we have is to come and see it. For further information, write—

UNITED WAR WORK CAMPAIGN TAKES RUNNING START

SOME DIST. ALREADY IN

Nodaway Is Going To Try To Be the First County in the State To Go "Over the Top."

James B. Robinson, chairman of the United War Work Committee of Polk Township, reports that some of the school district teams have already broken loose and run away and gone "over the top." He says Bedison District No. 117 reported this morning having raised and had paid in an amount in excess of their quota and that Douglas District No. 95, just north of Bedison, had also made the same report. Mr. Robinson also reports having received several large subscriptions from people in Maryville running as high as $200.00, and that the amount subscribed and the willingness of these people to subscribe indicates that if all the people do their part as readily as those who have already subscribed, that Maryville and Polk township will go "over the top" in a hurry.

C. E. Doslin, chairman of the County Committee, reports that Hopkins township has its goal of about $2,700.00, provided for, or will have on Monday, and that from information he has, it seems to be the purpose of all the townships in the county to complete the canvass on Monday. If this is done Nodaway county will go "over the top" on the first day and may have the credit of being the first county in the state to do so. However, S. G. Gillam, chairman of District No. 1, says that Nodaway evidently will have to "go some" to have this honor, as another county in the district has in mind to "go over" on Monday also. King City, the city and school district with the largest quota in Gentry county, reported to Mr. Gillam about noon today that they had already raised more than their quota. Mr. Gillam also received another telephone message from the chairman of Atchison county, that more than one third the entire amount of their quota had already been pledged and paid in, and as to Worth county, the other county of the district, Mr. Gillam reports that the county has been organized in school districts but that on account of the illness of one of the officials of the county committee it had been arranged to start the drive about the middle of the week, but that the county chairman advised him over the phone today that a number of the teams had caught the idea of "going over" the first day and were "raring to go" and that they might not be able to hold them.

RESIGNS FROM COMMITTEE

W. C. Pierce Tenders Resignation as Chairman of Liberty Loan Organization.

W. C. Pierce, of the Liberty Loan campaign committee, has resigned his position as chairman of that organization, his resignation to be effective as soon as a successor can be appointed.

Mr. Pierce tendered his resignation several days ago to F. C. Mitchell, state chairman of the Liberty Loan committee at Kansas City. In correspondence which followed high appreciation of the work done by Mr. Pierce was expressed and he was asked to reconsider the matter. Mr. Mitchell and other members of the state committee in letters of acceptance which followed, expressed great reluctance in accepting the resignation. It is not known who will be chosen as Mr. Pierce's successor.

It is certain that there will be two more Liberty Loans, the next one to come sometime in the early spring, perhaps in March or April. The amount of the Fifth Liberty Loan has not been made known.

A General Railway Strike Is Called Telegram To Social Democrats Says.—200,000 Deserters In Berlin.

Paris, Nov. 9.—Germany's reply to the armistice terms will not come before Sunday night at the earliest, it is generally believed here.

Washington, Nov. 9.—General Foch has power, should he believe it to be wise to make changes in the general phraseology of the armistice terms which he delivered to the German plenipotentiaries. His authority does not go far as to make any change in the terms themselves. They are absolute and are not subject to either debate or modification. The state department officials volunteered this information, when asked why the actual terms of the armistice are withheld.

Meanwhile the state department has no word of the progress of negotiations. The belief that the actual decision whether to accept or reject would not reach this country until tomorrow at the earliest was growing in official circles, although admittedly there was nothing to base it on.

Amsterdam ,Nov. 9.—Emperor William of Germany has declined to accede to the demands that he abdicate, says a German wireless dispatch picked up here. To the ultimatum of the Socialists the emperor replied through Minister of the Interior Drews that he refused to abdicate voluntarily on the ground that he could not at the moment of peace undertake the terrible responsibility of handing over Germany to the Entente and delivering up the country to anarchy.

London, Nov. 9.—It is now officially announced that Prince Maximilian of Baden has resigned as chancellor of Germany, said a German wireless dispatch today. The belief was expressed here that the chancellor's action assured speedy acceptance of the Allied

MEMBER MISSOURI PRESS ASSOCIATION

Contribute Freely to United War Work Drive.

The hope of an early peace must not be permitted to diminish the enthusiasm and generous response of the people to the United War Work drive which begins on Monday.

The drive is to secure funds for the support of various associations that are caring for the health, comfort and happiness of the nearly five million men who are serving their country in the army and navy. The associations include the Catholic and Jewish charities, the Young Men's and Young Women's Christian Associations, the Salvation Army, the American Library Association and the War Camp Community Service. It is thanks to them that the men who are fighting our cause find some degree of ease and comfort to ameliorate the hardships of war conditions. Their coffee, their doughnuts, their sweets, their tobacco, their religious services, their comforting administrations, their camps, huts and libraries, render a service to our boys the value of which can never be measured in money.

Whether peace comes soon or late, it will be perhaps two years before the armies are demobilized and the ships put out of commission or returned to the ways of commerce. The process of getting our two million men out of Europe will be longer and more difficult than was the process of getting them there, because English and other ships that were used for their transportation will be imperatively needed for other purposes.

Meanwhile our soldiers and sailors will be needing just as keenly as ever, the services of the associations for which it is now our duty to raise funds.

It is not only our duty. It is a proud privilege. There is not a citizen who lives in his own home, sleeps in his own bed, eats at his own table, and has done so throughout all these awful days of carnage and misery, but should be glad to make some sacrifice of his own comfort and convenience, even of his own necessities, to contribute to the help of the soldiers and sailors whose lives are constant hardship and danger.

Back up the organizations that are backing up our boys.—Today's Omaha World-Herald.

IN MISERY FOR YEARS

Mrs. Courtney Tells How She Was Cured by Lydia E. Pinkham's Vegetable Compound.

Oskaloosa, Iowa.—"For years I was simply in misery from a weakness and awful pains—and nothing seemed to do me any good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and got relief right away. I can certainly recommend this valuable medicine to other women who suffer, for it has done such good work for me and I know it will help others if they will give it a fair trial."—Mrs. LIZZIE COURTNEY, 108 8th Ave., West, Oskaloosa, Iowa.

Why will women drag along from day to day, year in and year out, suffering such misery as did Mrs. Courtney, when such letters as this are continually being published. Every woman who suffers from displacements, irregularities, inflammation, ulceration, backache, nervousness, or who is passing through the Change of Life should give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

Somebody's Dollars Will Do It—I Wonder if They'll Be Yours

By Bruce Barton

I WILL tell you what will happen some night this winter in France. Some night when its cold and dark. There will be a rustling through the front line trench, where our boys stand guard. And a heavy ladened Secretary will make his way along.

In his hands will be great steaming pots: in his pocket chocolate and cigarettes.

From one man to another he will go, passing a cup full of hot coffee to hands that tremble with the cold; bringing the comfort of a bit of sweet and a smoke.

Men will hail him cheerily, slapping him on the back; and when he has gone things will be a little easier in that trench because he has passed that way.

How much will it cost to make that trip, do you suppose? Counting the pittance that the Secretary is paid, and the cost of the chocolate and the cigarettes and all?

Five dollars? Twenty-five dollars? I do not know.

But whether it is five dollars or twenty-five, I'd like to think that it is my five or twenty-five—wouldn't you? That some night when it's cold and lonesome, my money and yours might send a Secretary out along that front line trench. Let's make up our minds that we are going to pay for a score of those trips. A score of the nights this winter shall be our nights

—Nights when the boys greet joyously the chocolate and cigarettes that our money provided; and are happier because our representative has passed.

United War Work Campaign — For the Boys in the Service

Proclamation.

It is not necessary for me to call the attention of the people of the state to the noble purposes of freedom for which the manhood of America is fighting on a foreign field. Our commonwealth has arisen to a splendid understanding of thise principals as expressed in the purchase of Liberty Bonds and subscriptions to other war campaigns. That the world may be free from autocratic oppression, millions of our young men have separated themselves from their accustomed civilian life, with all its domestic influence. There is, therefore, a natural heed in France, and in our cantonments, for the agencies that will supply, in some measure at least the whole some influence of the American home, the church and society.

Seven organizations, authorized by the government to care for the welfare of the men in the service, have been requested by President Wilson to combine their campaigns. These organizations are the Young Men's Christian Association, the Young Women's Christian Association, the National Catholic War Council, (K. of C.), the Jewish Welfare Board, War Camp Community Service, the American Library Association and the Salvation Army.

The manner in which these organizations, since the very inception of the war, have contributed to the welfare, comfort and convenience of the men in the service is a source of continuous satisfaction to every loyal American.

Every good citizen will agree with the wise suggestion of the President and regard it as a great privilege to contribute to the point of real sacrifice to sustain the work of these organizations.

Now Therefore, I, Frederick D. Gardner, Governor of Missouri, do hereby proclaim that the week beginning on Sunday, November 10, 1918, shall be designated and set apart for the United War Work Campaign. I appeal for earnest attention to the work and a liberal response to the call for the funds absolutely necessary for its maintenance.

Despite the numerous so-called peace offensive of the enemy, the coming year promises to be the most critical one of the war. We will have at least another two million men in the service, and it is highly necessary to the morale of that noble army that they experience no interruption of this morale-making work which has entered into their army life, bringing them happiness and courage. To see there is no interruption is the part of those OUR BOYS have left at home-our part.

In Testimony Whereof, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Missouri.

Done at the City of Jefferson this 29th day of October, A. D., 1918.

(Signed). FREDERICK D. GARDNER.

By the Governor:

JOHN L. SULLIVAN,
Secretary of State.

OBITUARY.

Alma Morgan, a daughter of Lewis and Lucy Morgan, was born near Graham, Mo., October 21, 1868, and was released from this life at their farm north east of Graham, Nov. 7, 1918, at the age of 50 years and 16 days.

She was married to Phillip Daise February 24, 1888, and three children were born to them, one dying in infancy. A daughter, Blanche, and son Lenn C., of Schenectady, N. Y., with the father are left to sorrow. Also one sister, Mrs. C. C. McDowell of this county, and a brother, John L. Morgan of Waurika, Okla., who attended the funeral.

Mrs. Daise with her husband, had lived on the home farm over 27 years. It was her ambition for the children to receive a good education and her life was spared until she was privileged to enjoy the fruitage of her great desire.

For many years she had been in poor health. Kind hands ministered to her during her last illness but sleep came to relieve her of suffering. A good neighbor, loving wife and tender mother has been called from us to await the summons of the great day. Many sorrow with the husband and children in their grief.

The funeral services were held at the home Saturday, Nov. 9 at 10 a. m., and the body laid to rest in the Graham cemetery.

With another peace celebration coming we're wondering if there is going to be plenty of ammunition left.

And speaking of wondering—don't you reckon President Wilson would like to be excused from issuing a Thanksgiving proclamation this year.

A new girl in an uptown office was given a number of bills with instructions to look up the number of the street so the collector would have no trouble in finding the parties. Finding all but one, and after looking a long time in the directory, she appealed to another clerk saying she could not find "Rebecca Lodge."

Human nature is a curious thing. Men will deeply sympathize with you if you wear a bandage around your foot, or your arm is in a sling, but will laugh right in your face if you appear in public with a dark ring around your eye.

Yes, Idabelle, you have the right understanding of the order against large gatherings of people. Kissing where the crowd exceeds twenty in number is forbidden.

"Women have the same rights as men in their conduct in public," an ardent suff speaker at St. Joe told an audience. Maybe so, but she don't use them always. Didja ever see a woman go along the street and stop to blow her nose on the sidewalk?

The "work or fight" order is all right were it not for the fact that so many married couples insist on doing both.

Now comes the experts and tell that a herring weighing seven ounces is able to lay 30,000 eggs. If some wizard could only cross the herring with the Rhode Island hen—aw, what's the use of speculating?

Of course its none of our concern, and perhaps the inquiry is impertinent, but we can't help wonder what the Sultan of Turkey will do with his harem when he has to skidoo.

It may be possible to kiss a woman against her better judgment, but you can't kiss her against her will. This may not be a proper subject to discuss from the pulpit, but it is expert testimony.

A Maryville man who is going to start on his vacation in a few days has not been known to do a lick of work in ten years.

HEALTH TALKS

SPANISH INFLUENZA OR GRIP.

By Dr. Lee H. Smith.

An old enemy is with us again, and whether we fight a German or a germ, we must put up a good fight, and not be afraid. The influenza runs a very brief course when the patient is careful and if we keep the system in good condition and throw off the poisons which tend to accumulate within our bodies, we can escape the disease. Remember these three C's—a clean mouth, a clean skin, and clean bowels. To carry off poisons from the system and keep the bowels loose, daily doses of a pleasant laxative should be taken. Such a one is made of May apple, leaves of aloe, root of jalap, and called Dr. Pierce's Pleasant Pellets. Hot lemonade should be used freely if attacked by a cold, and the patient should be put to bed after a hot mustard foot-bath.

To prevent the attack of bronchitis or pneumonia and to control the pain, Anuric tablets should be obtained at the drug store, and one given every two hours, with lemonade. The Anuric tablets were first discovered by Dr. Pierce, and, as they flush the bladder and cleanse the kidneys, they carry away much of the poisons and the uric acid.

It is important that broths, milk, buttermilk, ice cream and simple diet be given regularly to strengthen the system and increase the vital resistance. The fever is diminished by the use of the Anuric tablets, but in addition, the forehead, arms and hands may be bathed with water (tepid) in which a tablespoonful of salaratus has been dissolved in a quart. After an attack of grip or pneumonia to build up and strengthen the system, obtain at the drug store a good iron tonic, called "Irontic" Tablets, or that well known herbal tonic, Dr. Pierce's Golden Medical Discovery. —Adv.

LOOKING TO THE U.S.

WHEN FRANCE REBUILDS AMERICA WILL BE BUSY

EXTENT IS NOT REALIZED

After War Gerany Could Not Name a Price That Would Induce a Frenchman To Buy of Her.

"Have you Americans any conception of what the requirements of France will be, when the allies have won the war and our country begins its work of reconstruction?" asks H. H. Windsor in December Popular Mechanics Magazine. This question was asked me a few days ago by a prominent business man of Paris, who, having been gassed, can no longer fight, and is visiting this country. From what he proceeded to relate it is evident that comparatively few on this side do realize what our export trade to France is destined to become.

"For many years," he said "our people secured their machinery, printing presses, tools, electric machinery, and lighting fixtures, etc., all from Germany. This was because German prices were lower than other countries But now! Germany could not name a price which would induce a Frenchman to buy of her, no matter what his need. England will be busy supplying her own wants and those of her export trade, hence we are looking to your country. Our texeile mills, nearly all of which were in northeast France, have long since been destroyed and the machinery carried into Germany. Our textile manufacturers are already making a new start in southwest France; securing what little machinery they can. With the end of the war this industry will be one of the first to resume, and we shall require, of textile machinery alone, over 200,000,000 francs. I could go on down a list of a hundred articles, whose requirements while not so great, will in the aggregate total a vast sum. Partly because our people regard the Americans so highly, and are full of admiration for the splendid things they are doing in our country and partly that we may know and read your language, great numbers of our people are studying English, not only to be able to read it, but to speak it as well. We expect to offer such attractive opportunities, especially to constructing engineers and mechanics of all kinds, that thousands of your young men will remain in France, at least during the first two or three years of reconstruction."

NEWS FROM FLOYD REYNOLDS.

Says He and His Brother are Both Doing Fine.

Cyrus Reynolds received the following letter a few days ago from his son, Floyd, who is in active service in France:

France, Oct. 15.

Dear Father: I will answer your welcome letter I received yesterday. I amenjoying the best of health. The last time I saw Henry he was getting along O. K. Everything looks bright for the American boys. My division has been up and they did all that was expected of them, and came out with only a few killed and wounded. It was a very difficult sector. The one thing I don't like about this country, it rains every day just as sure as the day comes. I have given you about all the news I can and hope you will answer in the near future.

IS GRATEFUL FRENCH CHILD

Mrs. Mary Kost Riffle Receives Letter From Her Adopted War Orphan. Translation by Miss Floyd.

Mrs. Mary Kost Riffle, living southwest of the city, who has adopted a French war orphan, has just received a letter from the child's mother, Louise Darmony, and a brief one from the little girl herself, Leone, eight years old, is enclosed, as is a small snap shot of both.

The letters are written in the purest French and indicate the writer to be a person of education and culture. The translation was given by Miss Juanita Floyd, teacher of French at the Normal and the letters follow:

Orleans, France, Oct. 13.

"Dear Madam: I have received your letter of the 16th; I assure you that it gave me great pleasure to see the friendship which you bear towards your little god-daughter without knowing her. I suppose you are still in good health, but in our country there is much sickness just now; people die in a few days from bad cases of influenza.

"I have been sick for a few days this week with a bad cold, but that is better now, and your little god-daughter has had the whooping cough this summer. She still coughs a little, but has returned to school. I am working in a tobacco manufactory. That is doing well; they require eleven hours work a day to make many cigarettes for all of our poor soldiers, their only diversion being to smoke.

"The war is moving on nicely just now. This is very fortunate for those who still have their people in it, but as for me, dear Madam, I had only one brother left and he was killed August 15. He leaves a little wife, twenty-six years old, who is very nice, (they have no children), a very happy family as mine was. What a blighted life and what sorrow in my heart when I hear that the war is going on well and that the end is near. All the better for those poor unhappy men who await the end with impatience, but for us the days are heart-breaking. Yet we must pass that over and become resigned.

"Now, dear Madam, I thank you very much for the check of September as well as for the good will you have for your little god-daughter. Here is our picture. We are not very natural in the sunshine. Accept, dear Madam, the kindest regards of a devoted friend

"LOUISE DARMONY (widow)

"My Dear Godmother: I am writing you to give you news about myself, which is good just now. I go to school I am in the third class. I have had a very bad case of whooping cough and stopped school for a while, and at the reopening of school, I returned and took cold. I have had a very bad cold, but that is now better.

"I am eight years old. I learn very well at school; I have advanced a class at the reopening. When I return home, I help Mamma. I run her errands, dry the dishes for her and keep her company which I like very much.

"I close in embracing you with all my heart.

Gives Blood for Red Cross.

Kansas City, Nov. 9.—A handsome, well dressed woman, answered a recent advertisement of a local hospital for human blood in order that it might be transfused and a life saved. A reward of $25 was offered.

The woman permitted a quart of blood to be given to the sick patient. When the operation was over the doctor started to write out a check for the money.

"Make it payable to the Red Cross," she told him, and it was done.

Ruddy Cheeks—Sparkling Eyes —Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

AVERAGE BRITON MISSOURIAN

There's Nothing Worth Shouting About But the End, Anyway, So He Calmly Awaits Victory.

London, (by Mail.)—The temper of the British public in the face of the glad news of the past few weeks has been as remarkable as was their calm in the dark days of the early summer.

From the start, the average Briton has had the typically British point of view that we will worry through somehow, and come out on top—we always do.

He needed that philosophy pretty badly in March and April and May. There had been other dark days, but this one came closer home because it meant older men combed out for use in France ,and younger boys coming up for examination.

Now, while American newspapers scream victories and word comes of whistles blowing and bells ringing England receives its good news with pleasure no doubt, but quietly and with no fireworks. Papers are eagerly bought, the first word between friends is "more good news today," and there is no question but that the front news is followed closely.

However, the average Briton knew that it was going to turn out all right. He learned early in the war that bell-ringing wasn't always followed by continuation of good news. So he concludes it isn't over yet, and there's nothing worth shouting about except the end anyway. A sudden reverse apparently wouldn't jar him; he's discounted it already.

Besides being undemonstrative, he's from Missouri and must be shown that the time has arrived to toss away his hat in a wild celebration.

Pasture Wheat Now.

Unusually favorable weather conditions have caused an extremely rapid and vigorous growth of wheat this fall and in some places there is danger that the crop will reach the jointing stage before freezing weather comes. Wherever this happens the crop will suffer serious injury from winter-killing. Many farmers are asking the University of Missouri College of Agriculture how to avoid this damage. According to W. C. Ethredige of the department of farm crops, it may be avoided only by pasturing the crop now.

More harm than good ordinarily results from pasturing wheat, for the second growth is not as vigorous as the first growth and does not yield so well. Besides, considerable damage is suffered from trampling by the stock. But when there is danger of jointing, pasturing must be resorted to as the only means of saving the crop. Even in this case, judgment must be used in applying the remedy. Stock should not be turned on the crop when the ground is soft with moisture, as excessive damage from trampling would result. When the ground is dry cattle will do less damage than sheep because they will do less damage by as closely as sheep would graze it. But when the ground is wet, sheep should be turned in rather than cattle because they will da less damage by trampling. Under no conditions should wheat be pastured after the beginning of its growth in the spring.

Tamale Pie.

2 cups corn meal, 6 cups boiling water, 1 tablespoon fat, 1 onion chopped, 1 pound chopped meat, 2½ teaspoons salt, ¼ teaspoon pepper, 2 cups tomatoes.

Add cornmeal and 1½ teaspoons of salt to boiling water, boil 5 minutes, and cook over hot water 45 minutes. Melt fat, add onion, and cook until browned. Add chopped meat, and if raw, stir until red color disappears. Add 1 teaspoon salt, pepper, and tomatoes to the meat. If convenient, a green or red pepper cut in strips may be added. Eighteen ripe olives and 30 raisins will improve the flavor and give interest to the dish, but are not necessary. Grease a baking dish, put in a layer of cornmeal mush, pour in the meat mixture, cover with the mush and bake one-half hour.

Escallop of Roast Beef with Rice.

Season the rice with one teaspoon of bacon fat to each cup of cooked rice used, and put a layer in a baking dish. Cover with cold roast beef chopped not too fine, then a layer of sliced or stewed tomatoes, seasoned well with salt, pepper, and dots of savory fat. Repeat until the dish is nearly filled, and cover with bread-crumbs. Brown lightly in oven. If sliced tomatoes are used, cook until these are tender.

MAY SUSPEND DRAFT CALLS

Gen. Crowder Calls Aides Into Conference to Consider Plan.—Feeling Grows No More Will Be Needed.

Washington, Nov. 9.—Provost Marshal General Crowder called into conference yesterday the heads of all sections of his office to discuss possible suspension of the November draft calls, under which more than three hundred thousand men have been ordered to army camps.

With 4 million men already under arms overseas and at home, the feeling is growing that no more will be needed, even though it may be a long time before American forces can be recalled from France and some additional men may be sent over.

While General Crowder would not discuss what recommendations he might make to the general staff, it is understood that his advisers will advocate warmly withdrawal of the November calls, at least if the Germans accept the American and Allied armistice terms before the movement to camps begins.

Beginning Monday, 252,000 men were ordered to proceed to camp before November 15, including suspended calls replaced in force. Whether that flow can be stopped depends entirely upon the armistice progress, and the general staff's view of Germany's power of future resistance.

REV. NIEMANN AN EXAMINER

Maryville Pastor on Board to Choose Successor to Mgr. Linnenkamp.

A successor to the late Mgr. Christopher Linnenkamp will be selected at a concurcus which will be held at St. Joseph Tuesday. Monsignor Linnenkamp was the pastor of the Immaculate Conception Catholic church at the time of his death.

The concurcus is a procedure by which priests are chosen as irremovable rectorates. The priest so named cannot be removed without a cause. The concurcus consists of an examination and can be extended only to priests who have been ordained ten years and pastors for at least three. However, priests doing work equivalent to that record can also take the examination.

Bishop M. F. Burke has named the following examiners: Rev. Henry Niemann, Maryville; Rev. E. S. Ernst, Salisbury; Rev. Dennis Kiely, Plattsburg; Rev. D. F. Sullivan, Hannibal; and Rev. Ladislaus Slisz of SS. Peter and Paul church, St. Joseph.

Help Save a Soldier's Life.

In order to make the most efficient carbon for gas masks, to save our men from the horrible death caused by German poison gas, our government is in dire need of great quantities of the following materials:

Peach Stones.
Prune Pits.
Olive Pits.
Cherry Pits.
Walnut Shells.
Apricot Pits.
Plum Pits.
Date Seeds.
Butter-nut Shells.
Brazil Nut Shells.
Hickory Nut Shells.

Collect all you can of these materials, dry them thoroughly and deliver at least once each month to any branch post office or deposit in barrels placed in front of public schools and in department stores.

The commercial apple crop this year is 24,400,000 barrels, the department of agriculture has estimated. Last year's crop was 22,519,000 barrels.

NO LETUP IN WAR PLANS

Even With Armistice Signed, Vast Army May Be Necessary To Make It Effective.

Special to The Democrat-Forum.

Washington, Nov. 9. — Secretary of War Baker emphatically denied tolay that imminence of an armistice had caused any curtailment in military activity on the part of the government.

Military experts say a general plan of demobilization of America's great army has been worked out by the general staff, being developed long before there was any talk of an armistice, along sound military lines, as a matter of course. Plans for demobilization, it was declared, were begun soon after American forces assumed potent proportions. In the event of an armistice this fall, it was said the plans may have to be altered somewhat. No one knows yet how long it will be necessary for America to maintain a formidable force in Europe even after the armistice is signed. Peace may yet be a long way off, and the conditions of the armistice, if accepted by Germany, undoubtedly will require a vast army of soldiers for occupational and other purposes necessary to make the armistice effective.

The Russian situation also is a problem which may call for protracted military activity by the Allies. America, it has been hinted, may be called upon to send additional forces into Russia to aid in restoration of the government there. Experts agree the United States probably will have need for a large army in Europe for many months, and perhaps a year or more.

Arizona, which produced more than 38 per cent of the refined copper in the United States last year, is expected to exceed its record this year.

MUSTEROLE—QUICK RELIEF! NO BLISTER!

It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting

Musterole is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to bother with a cloth. You simply rub it on—and usually the pain is gone!

Many doctors and nurses use Musterole and recommend it to their patients.

They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

30c and 60c jars; hospital size $2.50.

ARE SOME SPENDERS

YANKS ASTOUND FRENCH BY THE LAVISH USE OF MONEY

BUY ALL THAT'S IN SIGHT

Shops Stocked With Six Months' Supplies Are Frequently Cleaned Out in a Day by the Doughboys.

By R. J. Kirk
Former Pacific Coast Newspaper man now with American Expeditionary Forces.

Somewhere in France, (by mail.) — American soldiers astound the French with their money-spending proclivity. Shops stocked sufficiently in the ordinary course of events to last six months are frequently cleaned out in a day when the Yankees arrive. The Americans just simply buy everything in sight.

A bunch of troops just arriving from the long journey overseas, or perhaps having been shunted around a month or so after landing, reach a permanent camp and are paid off. Frequently they haven't had a pay day in two or three months.

Then with their pockets full of the strange francs they go to town and make up for lost time. They overlook nothing from a Swiss watch to an armful of souvenirs to send back home.

But with all the spending and buying it is remarkable that there are few cases of drunkenness. The wine shops are open to the Americans at certain hours, generally from 5:30 to 8:30 p. m. But the average American does not like French wine, at least not at first. French beer has a flat, weak taste which does not appeal at all to Americans. There is no whiskey, and even were it available the Americans would not be allowed to purchase it. Cognac is the nearest approach to whiskey and this must be obtained by stealth—sort of a bootlegging process.

Many thousands of American soldiers, disgusted with the light wines and beers which only they may procure, have foresworn booze entirely, gone on the "water wagon" for keeps and will be in good trim for the nation-wide prohibition they will face when the war is over and they return to the United States.

Siberia has an area more than one and one-half times as great as that of the United States.

Potted Hominy and Meat.

5 cups cooked hominy, 2 tablespoons fat, 2 tablespoons flour, 2 cups milk, 4 potatoes, 2 cups carrots, 1 teaspoon salt, ½ pound dried beef, (2 cups cooked fish may be used instead of the beef).

Make a sauce of the fat, flour and milk, and cook until it thickens. Cut the potatoes and carrots in dice and mix them with the hominy and meat. Put in the baking dish in layers with the sauce, having the top layer of sauce. Bake an hour.

WORSE THAN GAS

Kidney disease is no respecter of persons. It attacks young and old alike. In most cases, the victim is warned of the approaching danger. Nature fights back. Headache, indigestion, insomnia, lame back, lumbago, sciatica, rheumatism, pain in the loins and lower abdomen, difficulty in urinating, all are indications of trouble with the kidneys.

When such symptoms appear you will almost certainly find quick relief in GOLD MEDAL Haarlem Oil Capsules.

This famous old remedy has stood the test for two hundred years in helping mankind to fight off disease. It is imported direct from the home laboratories in Holland, and may be had at almost every drug store. Your money promptly refunded if it does not relieve you. DIES IN HOSPITAL IN FRANCE

Parents Receive Word of Death of Roy Kent.—News Comes in Letter From Officer of Company.

Roy Hartman Kent, a son of Mr. and Mrs. E. M. Kent, living south of the city died of pneumonia in a hospital in France. News of their son's death came to the parents Wednesday morning in a letter from the lieutenant of young Kent's company.

Young Kent has been in active service in France for several months. He was wounded and had been in the hospital several weeks, and when the parents last heard he was improving.

Present Day Desserts.

These recipes from the United States Food Administration are sugar saving and very good.

Junket.

3 cups of milk, 3-4 cup light sirup, or honey; 1 teaspoon vanilla, 1 junket tablet, 1 tablespoon cold water.

Heat milk and sirup in a double boiler until lukewarm. Crush the junket tablet and dissolve it in cold water and add to milk. Add vanilla and stir thoroughly and quickly. Pour at once into glass serving dishes and let stand undisturbed until firm, then chill. Serve with fresh berries or grate nutmeg over surface and with cream.

Boiled Icing.

2 egg whites, 1-2 cup light sirup, ¼ teaspoon extract, few grains salt.

Heat sirup and allow to boil until it spins a long, heavy thread (120 degrees C, or 248 degrees F). Do not allow sirup to brown. Pour over the stiff egg whites beating constantly. Beat until creamy or of right consistency, and when cold, spread over cake. As this filling does not harden, it may be served as marshmallow paste is served.

head of a family, and the keeper or person in charge of any hotel or boarding house who shall know or have good reason to believe that any person within the city of Maryville is afflicted with any contagious disease.

No person shall pass into or out of, to or from any quarantined premises without permission first had and obtained from the city physician so to do, until the quarantine restrictions are removed from such premises and the premises disinfected under the direction of the City Physician.

No person shall tear down or remove quarantine flags or notices without authority from the Board of Health.

No person outside the corporate limits of said city of Maryville who has any contagious disease in any stage shall come into or be or remain in the city of Maryville.

All the above applies to the disease of influenza as well as other contagious diseases.

The members of the Board of Health in the City of Maryville are: W. O. Garrett, Mayor; P. L. Edwards, Marshal, and Dr. F. M. Ryan, City Physician.

The penalty for violation of any of the above provisions is a fine of not less than five nor more than one hundred dollars for each offense. We trust that all persons will perform the duties that devolves upon them under said Ordinance No. 2 before mentioned and the other quarantine regulations of said city to the end that the city may soon be free from this disease. With the proper co-operation of the public, the members of the Board of Health think that the disease of influenza can be placed under control so that the restrictions can be removed in a very short time. Without such co-operation it will be necessary to keep the restrictions on indefinitely.

This 9th day of November, 1918.

DR. F. M. RYAN, M. D.
W. O. GARRETT, Mayor.
P. L. EDWARDS, Marshal.

In an effort to stamp out the epidemic of influenza members of the city health board at a meeting held at the mayor's office last night decided on a more strict observance of the city health ordinance governing contagious diseases.

"If we are ever going to put a check to the epidemic," said Mayor Garrett this morning, "we must have the active co-operation of the people, and we must make the quarantine regulations worth while. There has been disregard of the regulations of the health department with some cases quarantined and others permitted to do as they pleased, while numbers of cases have been unreported to the health officers."

"From now on until the epidemic is definitely checked," continued Mayor Garrett, "the ordinance will be strictly enforced and persons found violating it will be arrested. I have given orders to the police to arrest any violator of the ordinance and there will be no compromise until the ban may be safely lifted. With five weeks next week of trying to stamp out the epidemic we have been unable to accomplish much and from today we are going to use drastic means. The health department is thoroughly in earnest in this matter. For myself I am tired of having persons do just as they please when they know what is required and the conditions we are facing. It must stop and arrests will follow every violation found."

Public Notice

To any person that wants to make more money, come to Wyoming and buy you a farm where the crop in one year will pay for the land and where one acre put in potatoes will pay for five acres at the present price; where you and your family will be healthy and you are sure to prosper if you work and try like you have to in Missouri. Now I know what I am saying, as I lived here in good old Missouri for 18 years and always tried hard to get us a home, but when I left here three years ago I owed over $1,600.00 of debts here that I could not pay, but have paid them since I went to Wyoming. I am only telling you this to encourage you to come. We have good schools good churches, good water and climate, and as good people as you can find anywhere. I have land I can sell from $15.00 per acre up to $50.00 per acre. Close to two good railroads. Have got a 2,400 acre ranch at $25.00 per acre that is sure a bargain.

Now the first reason I want you to come to Wyoming is, because if you come and buy a farm I get a small commission out of it, but that is not the best reason. I know I will be doing you a favor and know you will always be glad you come. Now, in case some stranger to me should read this ad. I will give you as reference some of the best men in Nodaway County or any other county. In Parnell, James Barber, W. N. Morgan, C. C. Evans, A. J. Roof, Bill Jackson; Ravenwood, Mo., S. E. Wells, and V. O. Hunt; Barnard, Mo., George Cole, banker; Gaynor City, Mo., Charlie Lewis; Sheridan, Mo., C. C. Hall; Hopkins, Mo., Albert Mutti; Maryville, Mo., Nathaniel Sisson, U. S. Wright, Henry Wright, James Robinson. For any information about this county, if you can't see me when I am here, write me at Carpenter, Wyo. I took three men out with me two weeks ago and sold all three a farm. Would be glad to have you talk to any of these men: Cecil Talkington of Parnell or Elmer Talkington and Pete Mumford of Bedford, Iowa. We raise corn, wheat, oats, barley, rye, speltz, flax, millet, cane and potatoes, alfalfa and good gardens. Poultry of all kinds do well. Stock of all kinds do well, especially hogs, as hog cholera is unknown.

The only way you can realize what a good county we have is to come and see it. For further information, write—

Frank Bebb, Carpenter, Wyoming
